

ICCCEEE19 is organized by Mashreq University, Khartoum North, Sudan on 21 – 23 September 2019. This conference is co-sponsored by IEEE, and the IEEE Sudan subsection. It offers an open platform for the Engineering and the Science community to collaborate, share ideas on hot issues, and develop endings to guide trends. The conference targets to bring together all scholars, researchers, innovators, students, and industry professions from different regions to promote the Engineering and the Technology sector.

The conference represents a core point that stimulates an environment for early career researchers to acquire the necessary research skills in Engineering/Science areas. All accepted and presented papers will be included in both the conference Proceedings and the IEEE Xplore® Digital Library.

Full details of the paper submission procedure are available at <http://iccceee19.mashreq.edu.sd> The thrust of the conference is to accept papers dealing with, but not limited to:

- **Artificial Intelligence and Data Mining**
- **Biomedical and Biomechanics Engineering**
- **Computer Network and Information System**
- **Computational and Applied Mathematics**
- **Control Systems**
- **Computing and Software Engineering**
- **Electrical Engineering**

- **Electronics Engineering**
- **Mechatronics Engineering**
- **Tele-Communication Engineering**

Important Deadlines

Deadline for full papers submission

30/04/2019

Acceptance notification of full papers

30/06/2019

Submission of camera-ready manuscripts

30/07/2019

Deadline for early registration

01/09/2019

Conference dates 21-23 Sep. /2019

Submission Guidelines:

All papers must be written in English with paper length of four (4) to six (6) printed pages (10-point font) including figures, in a two-column format. IEEE templates for MS Word or LaTeX formats can be found [here](#). The submission of papers for [ICCCEEE19](#) will be managed through [Easy Chair](#). All submitted papers will be examined for plagiarism in addition to being peer reviewed.
